

TARIK HAMRAOUI

Network Engineer | Full-Stack Developer

Bordj Bou Arreridj, Algeria | [+213 561985935] | hamraouitarik0@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Science graduate holding a Master's degree in Networks and Multimedia and a Bachelor's degree in Computer Systems and Software Engineering. Skilled in designing, configuring, and securing enterprise networks with Cisco technologies (VLAN, STP, OSPF, DHCP, ACL, WAN) and in building full-stack web and mobile applications with Next.js, React, TypeScript, Node.js, and Flutter. Delivered four end-to-end platforms spanning e-commerce, tax and fiscal management, and administrative systems, combining solid networking fundamentals with hands-on software development.

TECHNICAL SKILLS

Networking & Infrastructure: TCP/IP, VLAN, STP, OSPF, DHCP, NAT, ACL, Subnetting, Routing & Switching, Packet Tracer

Systems Administration: Linux, Windows Server, Active Directory, DNS

Full-Stack Development: JavaScript, TypeScript, Next.js, React, Node.js, Express, REST API, JWT Authentication, laravel, HTML, CSS, Tailwind CSS

Mobile Development: Flutter, Dart

Databases: MySQL

PROJECTS

FiscalPay Tax & Fiscal Management Platform / *Flutter, React, Node.js, Express, REST API, JWT*

- Architected a full-stack tax-management ecosystem combining a Flutter mobile app for taxpayers with a React admin dashboard, backed by a secured Node.js/Express REST API with JWT authentication.
- Engineered core fiscal workflows including tax declarations, G50 forms, contribution (cotisation) tracking, payments, business registry records, a tax simulator, and appointment scheduling with automated notifications.
- Built an administrative back office enabling user management, declaration review, analytics/reporting, and security monitoring, centralizing oversight for platform administrators.

Prime Watches E-Commerce Web Application / *Next.js, TypeScript, Tailwind CSS*

- Designed and shipped a full-stack e-commerce platform for a watch retailer, delivering a responsive storefront, product catalog, and shopping cart in a fully type-safe TypeScript codebase.
- Deployed and maintained the application on Vercel, ensuring continuous availability and fast page load times.

Fitness Platform Gym Management Web Application / *PHP, MySQL*

- Developed a full-stack gym and fitness platform combining a public-facing website with a dedicated administrative panel for content and membership management.

Enterprise Network Labs VLAN, STP, DHCP, WAN / *Cisco Packet Tracer*

- Designed, configured, and documented enterprise-grade network labs covering VLAN segmentation with router-on-a-stick, Spanning Tree Protocol across redundant topologies, DHCP-served subnetted LANs, and multi-site WAN connectivity via static routing.

EDUCATION

Master's Degree in Networks and Multimedia University Center of Bordj Bou Arreridj (2026)

Bachelor's Degree (License) in Computer Systems and Software Engineering University Center of Bordj Bou Arreridj (2024)

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals Microsoft, Sep 2025
- Network Administration Génie Informatique, Jun 2025
- Journey of a Cloud Project (Trainer & Participant) IT Research Community (ITRC), Nov 2025
- Fundamentals of Deep Learning NVIDIA, Nov 2024
- Cybersecurity Awareness: Cybersecurity Terminology LinkedIn Learning, Apr 2024
